Position Title	Senior .NET Developer
Client	Wiener osiguranje
Company Industry	Insurance
Location	Zagreb - and home office
Employment type	Full time
Contact	luka@primeresourcers.com +385 95 3527 436

Wiener osiguranje Vienna Insurance Group d.d. is a part of the leading insurance group in Central and Eastern Europe - Vienna Insurance Group. The company started operating in Croatia back in 1999 and, over the years, expanded the sales network and raised the level of business quality. Covering not only life insurance but also non-life insurance, Wiener osiguranje is engaged in the insurance of both primary and supplementary health care, property and family insurance, car and travel insurance as well as a variety of insurance services for legal entities and their businesses. With more than 700 employees at over 80 points of sale throughout Croatia where clients can receive quality advice in selecting the appropriate insurance coverage, as well as fast processing and the payment of damages on a daily basis, Wiener osiguranje is currently the second insurance company on the Croatian market.

We are looking for a **Senior .NET Developer** with an analytical mind, capable of creating the architecture of each new project in accordance with our internal standards. An ideal candidate is a team player open to regular communication and collaboration with our analysts, as well as capable of granulating a project for our junior developers and with a good understanding of system architecture.

YOUR TASKS AND RESPONSIBILITIES

- Handling internal projects of the Vienna Insurance group by handling certain requests
- Developing key processes and setting-up the skeleton of each new project while working on in-house systems and, later on, breaking down the project into smaller tasks
- Regular communication and collaboration with analysts on how to apply the required refinements to the specification and occasional communication with the users
- Solving requirements (NF / CR on existing production products) and eliminating production bugs

YOUR SKILLS AND COMPETENCES

- 5+ years of experience in software development and at least 2 years of experience with C#
- Experience in leading a project and developing system architectures
- Capability of understanding tasks and finding holes and ambiguities in the request
- Capability of granulating a project into smaller tasks for our junior developers
- Experience in backend development using C# and basic knowledge of MS SQL Database
- Some experience with frontend development (Typescript, JavaScript)
- Experience using GIT
- Experience using ticketing tools (preferably JIRA)

BENEFITS

- 4 days per week remote work possible
- Covered supplementary health policy
- Flexible working hours
- Free day for corporate volunteering
- Free day for parents of first-grade children
- Multisport card membership
- Benefits with our partners
- Christmas bonus
